VILLAGE MANAGER'S OFFICE

LET'S TALK ...

Over the years, the Manor Monthly has been our “old reliable” communications link to Village Residents but recent technology is directing you to the village website as a vehicle for broader, deeper levels of information sharing. My Village Manager’s Report format was borne out of the “1,000 year storms” that seem to hit us every few months. The VM reports feed on the mutual desire of you wanting concise information and the village attempting to “fill-you-in” on the constant flow of news, events or situations. The VM’s format was meant to enable you (only if you choose) to instantaneously receive useful information by who knows how many levels of mobile type technologies.

So how do we keep up with the pace of technology without either of us going crazy? We are reviewing more elaborate forms of communication linkages that can target neighborhoods of an emergency situation or send out different levels of information that you may only want to hear about and by-pass others. You will have the choice of what you want and how. We haven’t decided which way to go or which technology to enlist to better get the word out to you. We do know that concise, crisp information is what everyone is talking about. Let’s talk more about this later but we aim to please and let you know about what’s going on in your Village.

DAYLIGHT SAVING TIME REMINDER

Daylight saving time begins at 2:00am on March 10th. Don’t forget to “Spring Ahead”. With the change of daylight saving time, it's a good time to change the batteries in your smoke detector(s). Changing the batteries twice a year will make sure that the detector(s) will be working in case there is a fire.
